Investment strategy	<p>The Fund will actively manage a diversified portfolio of strong growth companies with sustainable business models, whilst managing risk. The Fund will have the flexibility to invest across the market capitalization (i.e. large, mid and small cap companies) spectrum and industries / sectors. The companies would be individually researched and selected only when the fund management team has satisfied itself on robustness of the company's business model, sustainability of its competitive advantage and the credibility of its top management team.</p>		<p>The Fund will invest in a diversified portfolio of strong growth companies with sustainable business models. Though the benchmark is BSE-200, the investments will not be limited to the companies constituting the benchmark. The Fund will have the flexibility to invest across the market capitalization spectrum (i.e. large, mid and small cap companies) and across industries/ sectors. The companies would be individually researched and selected only when the fund management team has satisfied itself on robustness of the company's business model, sustainability of its competitive advantage and the credibility of its top management team. The Fund will endeavor that the corpus of the scheme remains fully invested in equity and equity-related instruments at all times.</p>													
Risk profile of the scheme	<p>Mutual Fund units involve investment risks including the possible loss of principal. Scheme specific Risk Factors are summarized below: The scheme carries risks associated with investing in equity and equity related securities, derivatives, foreign securities, debt securities, securitized debt, money market instruments, short selling and securities lending. Investment in Mutual Fund units involves investment risks such as trading volumes, settlement risk, liquidity risk and default risk. Trading volume may restrict liquidity in equity and debt investments. The AMC may choose to invest in unlisted securities which may increase the risk on the portfolio. Also, the value of the Scheme investments may be affected by interest rates, currency exchange rates, changes in law/policies of the government, taxation laws and political, economic or other developments. Investments in debt and money market instruments are subject to interest rate risk, re-investment risk, basis risk, credit risk, spread risk, prepayment risk, etc. to the extent of the Scheme's investments in such securities. Please refer to the SID for further details.</p>		<p>Mutual Fund units involve investment risks including the possible loss of principal. Differentiation with existing open ended equity schemes (as on May 31, 2016)	For comparison of Existing Schemes, Investment Objective, Asset Under Management (AUM) and number of folios, please refer to point no. 7 on page 13 to 15.			Axis Triple Advantage Fund, an open ended hybrid fund is not a minor modification of any other existing scheme/product of Axis Mutual Fund. Further, the existing products of Axis Mutual Fund are either debt, liquid or equity funds and hence the 'hybrid fund' under consideration cannot be compared with any other existing schemes.																																						
Investment strategy	<p>The Scheme has dual objectives of generating income and capital gains while attempting to manage the risk from the market. In order to achieve the twin objectives, the Scheme intends to follow a top-down and bottom-up investment strategy. The top-down process would lead to the asset-allocation between equities and fixed income and the bottom-up process would lead to construction of the portfolio using specific securities.</p> <p>The Scheme would invest both in equities and fixed income instruments. Allocation between the two asset classes will be done using a quantitative asset allocation methodology. This methodology will be the primary tool to manage the overall risk of the portfolio in such a way as to achieve the objective of managing risk. The quantitative tool has been simulated with a target of limiting the downside to 5% in a calendar year. Within equities and fixed income, the portfolio would be actively managed to optimize returns within the respective asset class.</p>			The scheme seeks to provide superior risk adjusted returns through diversification across various asset classes such as equity, fixed income & gold that have historically shown low correlation with each other.

Risk management strategies	<p>The Scheme aims to manage the risk using a quantitative asset allocation methodology to decide the allocation between equity and fixed income securities.</p> <p>The investment team of the AMC will carry out rigorous in-depth credit evaluation of the money market and debt instruments (other than GSecs) proposed to be invested in. The credit evaluation will essentially be a bottom-up approach and include a study of the operating environment of the issuer, the past track record as well as the future prospects of the issuer and the short term/ long term financial health of the issuer.</p> <p>With respect to the equity component, the Scheme would invest in a diversified portfolio of equity and equity related securities which would help alleviate the sector/ market capitalization related concentration risk.</p> <p>The AMC has experienced investment professionals to help limit investment universe to carefully selected high quality businesses.</p> <p>The AMC would incorporate adequate safeguards for controlling risks in the portfolio construction process, which would be periodically evaluated. The Scheme will also use derivatives and other hedging instruments, as may be permitted by SEBI and RBI, from time to time, in order to protect the value of the portfolio. The risk control process involves identifying & measuring the risk through various Risk Measurement Tools.</p>			<p>The investment team of the AMC will carry out rigorous in depth credit evaluation of the money market and debt instruments (other than GSecs) proposed to be invested in. The credit evaluation will essentially be a bottom-up approach and include a study of the operating environment, past track record, future prospects and the financial health of the issuer.</p> <p>With respect to the equity component, the Scheme would invest in a diversified portfolio of equity and equity related securities which would help alleviate the sector/market capitalization related concentration risk.</p> <p>The AMC has experienced investment professionals to help limit investment universe to carefully selected high quality businesses.</p> <p>The AMC would incorporate adequate safeguards for controlling risks in the portfolio construction process. These would be periodically evaluated. The Scheme will also use derivatives and other hedging instruments, as may be permitted by SEBI and RBI, from time to time, to protect the value of the portfolio. The risk control process involves identifying & measuring risks through various risk measurement tools.</p> <p>For portfolio diversification, the Scheme will also invest in Gold ETFs as gold, historically, has shown a low correlation to other asset classes like equity & debt.</p>

Investment strategy	The scheme seeks to generate capital appreciation through an actively managed diversified portfolio of primarily larger Midcap companies. Larger Midcap companies combine the flexible, innovative, high-growth features of mid and small size companies with the proven management and liquidity of larger companies. The Fund intends to benefit from this "best of both worlds" characteristic of larger Midcap companies. The portfolio will be built utilising a bottom-up stock selection process, focusing on appreciation potential of individual stocks from a fundamental perspective.	The scheme aims to generate long term capital appreciation by investing in a concentrated portfolio of equity & equity related instruments of up to 25 companies. In order to have a concentrated portfolio, the scheme will follow a bottom up stock selection approach. The portfolio will be built utilising a bottom-up stock selection process, focusing on appreciation potential of individual stocks from a fundamental perspective. The AMC employs a "Fair value" based research process to analyse the appreciation potential of each stock in its universe (Fair value is a measure of the intrinsic worth of a company). The universe of stocks is carefully selected to include companies having a robust business models and enjoying sustainable competitive advantages as compared to their competitors. While 65 - 100% of the corpus will be invested in equities (no less than 20 companies and up to 25 companies), it is expected that under normal market conditions at least 80% of the corpus will be invested in equities (no less than 20 companies and up to 25 companies). The Scheme will primarily invest in companies among the top 200 in terms of market cap.

The risk control process involves identifying & measuring the risk through various Risk Measurement Tools. Further, the AMC has implemented the Bloomberg Portfolio Management System as Front Office System (FOS) for managing risk. The system has inbuilt features which enables the Fund Manager calculate various risk ratios and analyze the same.</p> <p>The AMC has experienced investment professionals to help limit investment universe to carefully selected high quality businesses. The fund manager would also consider hedging the portfolios in case of predictable events with uncertain outcomes.</p>

The Scheme will not invest in foreign securitized debt.</p> <p>*Equity allocation is measured as the Gross exposure to equities, equity related instruments and derivatives. The scheme will enter into derivatives transactions for hedging. The derivative positions will be hedged against corresponding positions in either equity or derivative markets depending on the strategies involved and execution costs. On the total portfolio level the scheme does not intend to take a net short exposure to equity markets. Unhedged positions in the portfolio (investments in equity shares without corresponding exposure to equity derivative) shall not exceed 10% of the net assets.</p> <p>The margin money deployed on derivative positions would be included in the debt and money market instruments category.</p> <p>The option premium shall be for the purpose of exposure to derivative instruments which shall be restricted to long call options. In such cases, the total exposure related to option premium paid shall not exceed 20% of the net assets of the scheme. Moreover, this upper limit of 20%, for investments in options premium, if any, shall be applicable only at the time of investment. If due to market actions the value of options appreciates/ depreciates resulting in breach of the limit of 20%, the fund manager may or may not rebalance the portfolio and may run with the ongoing exposure. However, if the fund manager sells the option before expiry of the contract, the reinvestment, if any, would be subject to the maximum 20% limit on options premium.</p> <p>The Scheme may also use fixed income derivative instruments subject to the guidelines as may be issued by SEBI and RBI and for such purposes as may be permitted from time to time.</p> <p>The Scheme shall not carry out Short Selling and securities lending and borrowing.</p> <p>The Scheme retains the flexibility to invest across all the securities in the equity, debt and Money Markets Instruments and mutual fund units. <p>Differentiation with existing open ended equity schemes (as on May 31, 2016)</p>	<p>For comparison of Existing Schemes, Investment Objective, Asset Under Management (AUM) and number of folios, please refer to point no. 7 on page 13 to 15.</p>																					

<p>Investment strategy</p>	<p>The scheme will seek to achieve its investment objective primarily by employing various strategies which seek to exploit absolute returns opportunities in equity and derivative markets. In case such opportunities are not available, the scheme will invest the corpus in debt and money market instruments.</p> <p>The equity and derivative markets have experienced enormous growth in India in the last few years. The market provides the investor the ability to derive returns from the various strategies enumerated below. The market is not always efficient to the extent of mispricing in the derivative market and the underlying cash market. These techniques differ in that each method attempts to exploit a different form of imperfection in the underlying equity, debt and derivatives market and thus expose the investor to different forms of risk.</p>	<p>The scheme has a dual objective of providing capital appreciation and income distribution to the investors by using equity and equity related instruments, arbitrage opportunities, and investments in debt and money market instruments. The scheme seeks to benefit from the concept of asset allocation. The aim of asset allocation is to provide superior risk adjusted returns through diversification across various asset classes like equity, fixed income & arbitrage which have historically had low correlation with each other.</p> <p>Equity and Equity Related Instruments: The equity allocation will be managed actively. The focus would be to build a diversified portfolio of strong growth companies, reflecting our most attractive investment ideas, at all points of time. The portfolio will be built utilizing a bottom-up stock selection process, focusing on appreciation potential of individual stocks from a fundamental perspective. The AMC employs a "Fair value" based research process to analyse the appreciation potential of each stock in its universe (Fair value is a measure of the intrinsic worth of a company). The universe of stocks is carefully selected to include companies having a robust business models and enjoying sustainable competitive advantages as compared to their competitors. The Fund will have the flexibility to invest across the market capitalization spectrum. The Fund by utilizing a holistic risk management strategy will endeavor to manage risks associated with investing in equity markets.</p> <p>The Fund has identified the following risks and designed risk management strategies, which are embedded in the investment process to manage these risks</p> <ul style="list-style-type: none"> i) Quality Risk - Risk of investing in unsustainable / weak companies. ii) Price Risk - Risk of overpaying for a company iii) Liquidity Risk - High Impact cost of entry and exit iv) Volatility Risk - Volatility in price due to company or portfolio specific factors v) Event Risk - Price risk due to a company / sector specific or market event <p>Fixed Income: The Scheme proposes to invest in a diversified portfolio of high quality debt and money market instruments to generate regular income. The fund manager will allocate the assets of the scheme taking into consideration the prevailing interest rate scenario & the liquidity of the different instruments. The portfolio duration and credit exposures will be decided based on a thorough research of the general macroeconomic condition, political and fiscal environment, systemic liquidity, inflationary expectations, corporate performance and other economic considerations. The fund manager will keep in mind the yield structure of different asset classes (e.g. the sovereign yield curve and the corporate bond yield curve) as well as the kinks within a particular yield curve (e.g. the different points of the sovereign yield curve) while making investment decisions.</p> <p>Cash-Futures Arbitrage: The fund would look for market opportunities between the spot and the futures market. The cash futures arbitrage strategy can be employed when the price of the futures exceeds the price of the underlying stock. The fund would first buy the stocks in cash market and then sell in the futures market to lock the spread known as arbitrage return. Buying the stock in cash market and selling the futures results into a hedge where the fund have locked in a spread and is not affected by the price movement of cash market and futures market. The arbitrage position can be continued till expiry of the future contracts. The future contracts are settled based on the last half an hour's weighted average trade of the cash market. Thus there is a convergence between the cash market and the futures market on expiry. This convergence helps the fund to generate the arbitrage return locked in earlier. However, the position could even be closed earlier in case the price differential is realized before expiry or better opportunities are available in other stocks.</p>
<p>Risk profile of the scheme</p>	<p>Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:</p> <p>The scheme carries risks associated with investing in equity and equity related securities, derivatives, debt and money market securities, securitized debt, short selling and securities lending.</p> <p>No assurance can be given that the Fund Manager will be able to locate investment opportunities or to correctly exploit price discrepancies in the capital markets. Reduction in mispricing opportunities between the cash market and Future and Options market may lead to lower level of activity affecting the returns.</p> <p>In case of a large redemption, the scheme may need to reverse the spot-futures transaction before the date of futures' settlement. This eventuality may lead to basis risk.</p> <p>Investment in mutual fund units involves investment risks such as trading volumes, settlement risk, liquidity risk and default risk. Trading volume may restrict liquidity. The AMC may choose to invest in unlisted securities which may increase the risk on the portfolio. Also, the value of the Scheme investments may be affected by currency exchange rates, changes in law/policies of the government, taxation laws and political, economic or other developments.</p> <p>Investments in debt and money market instruments are subject to interest rate risk, re-investment risk, basis risk, credit risk, spread risk, prepayment risk, etc.</p> <p>Please refer to the SID for further details.</p>	<p>The scheme attempts to manage risk through active asset allocation. According to detailed historical analysis done by the AMC, such a scheme is able to generate a much lower risk profile compared to a 100% equity investment strategy. However there is no certainty that the active asset allocation approach will be able to deliver the risk management going forward. Please refer to the SID for further details.</p>
<p>Risk management strategies</p>	<p>In comparison to an equity fund, there are certain additional risks which are associated with an arbitrage fund and the mitigants to such risks are as follows:</p> <p>Lack of arbitrage opportunities: The Fund will enter into arbitrage trades when such opportunities are available. If the yields on arbitrage are low, the fund would invest in debt securities and money market instruments.</p> <p>Price Risk: While arbitrage is a low risk strategy, there would be periods when the equity and derivatives market may not move perfectly in sync. However, these movements are temporary and at the time of expiry of derivatives the prices converge.</p> <p>Un-hedged positions in the portfolio (investments in equity shares without corresponding exposure to equity derivative) shall not exceed 10%. Also, the AMC has a team of experienced investment professionals and uses systems so that risks are managed effectively.</p>	<p>Risk management is going to be an integral part of the investment process. Effective risk management is critical to fund management for achieving financial soundness. Investments by the Scheme shall be made as per the investment objectives of the Scheme and provisions of the Regulations.</p>
<p>Plans and Options</p>	<p>Plans: Regular Plan & Direct Plan Option: Growth Option & Dividend Option (Payout and Reinvestment) Default Plan : Direct Plan Default Option: Growth Default Facility: Dividend Reinvestment facility</p> <p>The investor must clearly specify his choice of plan. Investors subscribing under Direct Plan of a Scheme will have to indicate "Direct Plan" against the Scheme name in the application form. Investors should also indicate "Direct" in the ARN column of the application form. However, in case Distributor code is mentioned in the application form, but "Direct Plan" is indicated against the Scheme name, the application will be processed under Direct Plan. In case the Distributor code is not mentioned but the name of the Plan is mentioned (whether regular plan or direct plan), the application will be processed under the Direct plan. Further, If neither Distributor code is mentioned in the application form, nor Plan is indicated against the Scheme name, the application will be processed under Direct Plan. The investors may refer to the following table for applicability of Direct Plan/ Regular Plan under different scenario :-</p>	<p>Plans: Regular Plan & Direct Plan Option: Growth Option & Dividend Option [Monthly (Payout and Reinvestment) & Quarterly (Payout and Reinvestment)] Default Plan : Direct Default Option: Growth Default Sub Option: Monthly Default Facility: Reinvestment</p>

7A. Differentiation with existing open ended equity schemes (as on May 31, 2016)	<p>The scheme is not a minor modification of any existing scheme/ product of Axis Mutual Fund. Differentiation is as follows:</p> <p>Axis Long Term Equity Fund</p> <p>Asset Allocation</p> <table border="1" data-bbox="240 1041 1538 1115"> <thead> <tr> <th>Type of Instrument</th> <th>Normal Allocation (% of net assets)</th> </tr> </thead> <tbody> <tr> <td>Equity and Equity Related Instruments</td> <td>80% - 100%</td> </tr> <tr> <td>Debt and Money Market Instruments</td> <td>0% - 20%</td> </tr> </tbody> </table> <p>Primary Investment Objective - To generate income and long-term capital appreciation from a diversified portfolio of predominantly equity and equity-related securities. However, there can be no assurance that the investment objective of the scheme will be achieved.</p> <p>Investment Strategy - The Fund will invest in a diversified portfolio of strong growth companies with sustainable business models. Though the benchmark is BSE-200, the investments will not be limited to the companies constituting the benchmark. The Fund will have the flexibility to invest across the market capitalization spectrum (i.e. Large, mid and small cap companies) and across industries / sectors.</p> <p>The companies would be individually researched and selected only when the fund management team has satisfied itself on robustness of the company's business model, sustainability of its competitive advantage and the credibility of its top management team. The focus of the fund would be to invest in relatively larger companies within this category.</p> <p>Investment Strategy - The scheme seeks to generate capital appreciation through an actively managed diversified portfolio of primarily larger Midcap companies. Larger Midcap companies combine the flexible, innovative, high-growth features of mid and small size companies with the proven management and liquidity of larger companies. The Fund intends to benefit from this "best of both worlds" characteristic of larger Midcap companies. 	Debt and Money market instruments (including investments in securitized debt)	10% - 35%
	Primary Investment Objective - To generate income through low volatility absolute return strategies that take advantage of opportunities in the cash and the derivative segments of the equity markets including the arbitrage opportunities available within the derivative segment, by using other derivative based strategies and by investing the balance in debt and money market instruments. However, there is no assurance or guarantee that the investment objective of the Scheme will be achieved. The Scheme does not assure or guarantee any returns.	
	Investment Strategy - The scheme will seek to achieve its investment objective primarily by employing various strategies which seek to exploit absolute returns opportunities in equity and derivative markets. In case such opportunities are not available, the scheme will invest the corpus in debt and money market instruments.	
	The equity and derivative markets have experienced enormous growth in India in the last few years. The market provides the investor the ability to derive returns from the various strategies enumerated below. The market is not always efficient to the extent of mispricing in the derivative market and the underlying cash market. These techniques differ in that each method attempts to exploit a different form of imperfection in the underlying equity, debt and derivatives market and thus expose the investor to different forms of risk.	
	Differentiation - Axis Enhanced Arbitrage Fund aims to generate income through low volatility absolute return strategies that take advantage of opportunities in the cash and the derivative segments of the equity markets including the arbitrage opportunities available within the derivative segment, by using other derivative based strategies and by investing the balance in debt and money market instruments.

Debt & Money Market Instruments	20-35%	
Primary Investment Objective - The investment objective of the scheme is to provide capital appreciation and income distribution to the investors by using equity and equity related instruments, arbitrage opportunities, and investments in debt and money market instruments. However, there is no assurance or guarantee that the investment objective of the Scheme will be achieved. The Scheme does not assure or guarantee any returns.		
Investment Strategy - The scheme has a dual objective of providing capital appreciation and income distribution to the investors by using equity and equity related instruments, arbitrage opportunities, and investments in debt and money market instruments. The scheme seeks to benefit from the concept of asset allocation. The aim of asset allocation is to provide superior risk adjusted returns through diversification across various asset classes like equity, fixed income & arbitrage which have historically had low correlation with each other.		
Differentiation - The fund is an asset allocation fund that invests across equity, fixed income and arbitrage. Currently, Axis doesn't have such a scheme.

	Debt instruments with maturity/average maturity/residual maturity/interest rate resets greater than 1 year	0% - 30%
	Primary Investment Objective - To provide optimal returns and liquidity to the investors by investing primarily in a mix of money market and short term debt instruments which results in a portfolio having marginally higher maturity as compared to a liquid fund at the same time maintaining a balance between safety and liquidity. However, there can be no assurance that the investment objective of the scheme will be achieved.	
	Investment Strategy - The risk-return profile of this fund positions it in between a liquid fund and short duration income fund. The portfolio strategy seeks to increase yield by having a marginally higher maturity and moderately higher credit risk as compared to a liquid fund; whilst maintaining balance between safety and liquidity.

Money market instruments	0% - 100%	
Primary Investment Objective - To generate optimal returns while maintaining liquidity through active management of a portfolio of debt and money market instruments.		
Investment Strategy - To maximize returns to the investor through an active management of the portfolio, by elongating the duration of the portfolio in a falling interest rate scenario and reducing the duration at a time when interest rates are moving up.		
With the discretion to take aggressive interest rate/duration risk calls, this could mean investing the entire net assets in long dated Government securities and debt instruments (carrying relatively higher interest rate risk/duration risk), or on defensive considerations, entirely in money market instruments. Accordingly, the interest rate risk/duration risk of the scheme may change substantially depending upon the Fund's call.		
Differentiation - Active duration management.

	Primary Investment Objective - The scheme will endeavor to generate optimal returns in the medium term while maintaining liquidity of the portfolio by investing in debt and money market instruments.	
	Investment Strategy - The scheme proposes to invest in a diversified portfolio of high quality debt and money market securities to generate optimal risk adjusted returns in the medium term. The fund management team is going to take a medium term view on the interest rate structure. While determining the portfolio duration and credit stance, the fund manager will keep in mind the state of the local economy, inflation numbers as well as the global economic scenario.	
	The fund manager will try to allocate assets of the scheme between various fixed income securities taking into consideration the prevailing interest rate scenario, the liquidity of the different instruments and maintain a diversified portfolio with the objective of achieving optimal risk adjusted returns. Equity & Equity related instruments	1% - 35%	
Primary investment objective - To generate regular income through investments in debt & money market instruments, along with capital appreciation through limited exposure to equity and equity related instruments. It also aims to manage risk through active asset allocation.		
Investment strategy - The Scheme has dual objectives of generating income and capital gains while attempting to manage the risk from the market. In order to achieve the twin objectives, the Scheme intends to follow a topdown and bottom-up investment strategy. The top-down process would lead to the asset-allocation between equities and fixed income and the bottom-up process would lead to construction of the portfolio using specific securities. The Scheme would invest both in equities and fixed income instruments. Allocation between the two asset classes will be done using a quantitative asset allocation methodology. This methodology will be the primary tool to manage the overall risk of the portfolio in such a way as to achieve the objective of managing risk. The quantitative tool has been simulated with a target of limiting the downside to 5% in a calendar year. Within equities and fixed income, the portfolio would be actively managed to optimize returns within the respective asset class.

In case an investor wishes to receive payments vide cheques / demand drafts to be sent using a postal / courier service, please provide appropriate written instructions to the AMC / Registrar for the same.
- Please enclose a cancelled cheque leaf (or copy thereof) in case your investment instrument (pay-in) is not from the same bank account as mentioned under bank account details.
- Any communication, dispatch of redemption / dividend proceeds / account statements etc. would be made by the Registrar / AMC as per reasonable standards of servicing.
- The Debit Mandate is an additional facility available to Axis Bank account holders only.

6. BANK DETAILS

It is mandatory for investors to mention bank account details on the form as per directives issued by SEBI. Applications without this information are liable to be rejected. The Mutual Fund / AMC reserve the right to hold redemption proceeds in case requisite bank details are not submitted.

Option to register multiple bank accounts

The AMC / Mutual Fund has also provided a facility to investors to register multiple bank accounts. By registering multiple bank accounts, investors can use any of their registered bank accounts to receive redemption / dividend proceeds. Any request for a change in bank mandate requires 10 days for validation and verification. Further, these account details will be used by the AMC / Mutual Fund / R&T for verification of instruments (like cheques/DDs/POs) received at the time of subscription / purchase applications to ensure that subscription payments are received only from one of the registered bank accounts. Payments from non-registered bank accounts (called third party payments) will not be accepted (except where permitted as per SEBI regulations). Investors are requested to avail of this facility by filling in the application form for registration of multiple bank accounts available at any of our ISCs / OPAs or on our website www.axismf.com.

Cheques submitted at the time of purchase should be from the beneficiary investors account or from an account mentioned in your Multiple Bank Accounts Registration form (except for minors for amounts less than ₹ 50,000 and Corporates / non-individuals).

Demand drafts submitted at the time of subscription should be accompanied by a banker's certificate clearly stating the investor's name and PAN as well as mentioning that the demand draft has been issued by debiting the investor's own bank account. Pre-funded instruments issued by the bank against cash shall not be accepted for investments of ₹ 50,000 or more. This pre-funded instrument should also be accompanied by a certificate from the banker giving the investor's name, address and PAN.

Payments made through RTGS/NEFT/NECS should be accompanied by a banker's certificate stating that the RTGS/NEFT/NECS payment has been made by debiting the investor's own bank account along with mention of the investor's name and PAN.

7. THIRD PARTY PAYMENTS

When payment is made through instruments issued from a bank account other than that of the investor, the same is referred to as a Third Party payment. Where an investor has opted to register multiple bank accounts (using the "Multiple Bank Accounts Registration Form"), and purchase payment is made from an account different from what is registered, any one of the following documents need to be provided as proof along with the payment instrument.

- Banker's certificate stating that the investment is from the investor's own bank account along with mention of his name and PAN

- Bank account passbook or statement mentioning the investor's name / PAN

Restriction on acceptance of Third Party payments for subscriptions, and exceptions thereto

- In case of payments from a joint bank account, one of the joint holders of the bank account must be the first account holder under the investment application.
 - The Asset Management Company shall not accept subscriptions with Third Party payments except in the following situations:
 - Where payment is made by parents/grand parents/related persons on behalf of a minor in consideration of natural love and affection or as gift for a value not exceeding ₹ 50,000 (each regular purchase or per SIP installment). However this restriction will not be applicable for payment made by a guardian whose name is registered in the records of Mutual Fund in that folio.
 - Where payment is made by an employer on behalf of an employee under Systematic Investment Plans through payroll deductions.
 - Custodian on behalf of an FII or a client.
- Documents to be submitted for exceptional cases
- KYC is mandatory for all investors (guardian in case of minor) and the person making the payment i.e. the third party. Investors and the person making the payment should attach their valid KYC acknowledgement letter to the application form.
 - Submission of a separate, complete and valid "Third Party Payment Declaration Form" from the investors (guardian in case of minor) and the person making the payment i.e. third party. The said Declaration Form shall, inter-alia, contain the details of the bank account from which the payment is made and the relationship with the investor(s). Please contact the nearest OPA/ISC of Axis Mutual Fund or visit our website www.axismf.com for the declaration form.

8. KYC

All Applicants (including POAs and Guardians) are required to be KYC compliant irrespective of the amount of investment. In case you are not KYC certified, please fill in the KYC form (individual or Non-Individual). A KYC acknowledgement letter should be submitted along with application for opening a folio or making an investment. Each holder in the folio must be KYC compliant.

Investors may kindly note that new SEBI Circular issued regarding uniformity in the KYC process was effective from January 1, 2012.

- SEBI has introduced a common KYC Application Form for all the SEBI registered intermediaries, new Investors are therefore requested to use the common KYC Application Form and carry out the KYC process including In-Person Verification (IPV) with any SEBI registered intermediaries including mutual funds. The KYC Application Forms are available on our website www.axismf.com.
- The Mutual Fund shall perform the initial KYC of its new investors and shall also accept the details change form for investors who have done their KYC prior to 31st Dec 11.
- It is mandatory to carry out In-Person Verification (IPV) for processing the KYC of its new / existing investors from January 1, 2012.
- Once the KYC and IPV-In Person Verification has been done with any SEBI registered intermediary, the investor need not undergo the same process again with any other intermediary including mutual funds. However, the Mutual Fund reserves the right to carry out fresh KYC/additional KYC of the investor.
- Existing KYC compliant investors of the Mutual Fund can continue to invest as per the current practice.
- Non-individual investors will have to do a fresh KYC due to significant changes in KYC requirements.
- In accordance with SEBI Circular No. CIR/MIRSD/13/2013 dated December 26, 2013, the additional details viz. Occupation details, Gross Annual Income/networth and Politically Exposed Person (PEP)* status mentioned under section 2 & 3 which was forming part of uniform KYC form will now be captured in the application form of the Fund. Also, the detail of nature of services viz. Foreign Exchange/Gaming/Money Lending, etc., (applicable for first/sole applicant) is required to be provided as part of Client Due Diligence (CDD) Process of the Fund.

The said details are mandatory for both Individual and Non Individual applicants.

*PEP are defined as individuals who are or have been entrusted with prominent public functions in a foreign country, e.g., Heads of States or of Governments, senior politicians, senior Government/judicial/ military officers, senior executives of state owned corporations, important political party officials, etc.

Subsequently, SEBI, vide its circular no. MIRSD/Cir-5/2012 dated April 13, 2012 advised various intermediaries to upload KYC data of its existing customers into the KRA system. While uploading KYC data into the KRA system, intermediaries were also required to highlight such 'Missing/Not Available' KYC information of a customer, which was either not required or not taken previously, but was mandatory as per uniform KYC guidelines issued by SEBI.

In accordance with AMFI Best practices guidelines circular no. 62/2015-16 dated September 18, 2015, investors may note the following:

With effect from November 1, 2015:

- It shall be mandatory for all new investors to provide additional KYC information such as Income details, Occupation, association with politically exposed person, net worth etc. as mentioned in the application form. Subscription requests, without providing these details, shall be liable to be rejected.
- No subscriptions (whether fresh or additional) and switches pertaining to 'KYC-on-hold' cases shall be accepted, unless the investor / unitholder also submits relevant KYC missing / updated information, which is appropriately updated on the KRA - KYC system.

With effect from January 1, 2016:

- It shall be mandatory for all existing investors/unitholders to provide additional KYC information such as Income details, occupation, association with politically exposed person, net worth etc. as mentioned in the application form.
- It shall be mandatory for existing customers to complete the IPV and provide the missing KYC information failing which their applications / transaction requests for additional subscription (including switches) shall be liable to be rejected.

9. ULTIMATE BENEFICIAL OWNERS(S)

Pursuant to SEBI Master Circular No. CIR/ISD/AML/3/2010 dated December 31, 2010 on Anti Money Laundering Standards and Guidelines on identification of Beneficial Ownership issued by SEBI vide its Circular No. CIR/MIRSD/2/2013 dated January 24, 2013, Investors (other than Individuals) are required to provide details of 'Ultimate Beneficial Owner(s) (UBO(s))' in the separate format enclosed with this form & also available at www.axismf.com. 22. FOREIGN ACCOUNT TAX COMPLIANCE (FATCA)

FATCA & CRS TERMS & CONDITIONS : Details under FATCA & CRS: The Central Board of Direct Taxes has notified Rules 114F to 114H, as part of the Income- tax Rules, 1962, which Rules require Indian financial institutions such as the Bank to seek additional personal, tax and beneficial owner information and certain certifications and documentation from all our account holders. In relevant cases, information will have to be reported to tax authorities / appointed agencies. Towards compliance, we may also be required to provide information to any institutions such as withholding agents for the purpose of ensuring appropriate withholding from the account or any proceeds in relation thereto.

Should there be any change in any information provided by you, please ensure you advise us promptly, i.e., within 30 days.

Please note that you may receive more than one request for information if you have multiple relationships with Axis Mutual Fund or its group entities. Therefore, it is important that you respond to our request, even if you believe you have already supplied any previously requested information.

FATCA & CRS INSTRUCTIONS : If you have any questions about your tax residency, please contact your tax advisor. If you are a US citizen or resident or greencard holder, please include United States in the foreign country information field along with your US Tax Identification Number.

It is mandatory to supply a TIN or functional equivalent if the country in which you are tax resident issues such identifiers. If no TIN is yet available or has not yet been issued, please provide an explanation and attach this to the form.

SEBI issued its circular no. CIR/MIRSD/2/2015 dated August 26, 2015 inter alia advising intermediaries to take necessary steps to ensure compliance with the requirements specified in the rules and guidelines specified by the Government of India. AMFI also issued its best practices guidelines circular no. 63/2015-16 dated September 18, 2015 on this matter. The AMC and the Mutual Fund are required to adhere to various requirements inter alia including submission of various information / details relating to the investors in the schemes of the mutual fund, to authorities, as specified under the applicable laws. Accordingly, the following aspects need to be adhered to :

- With effect from November 1, 2015 all investors will have to mandatorily provide the information and declarations pertaining to FATCA/CRS for all new accounts opened, failing which the application / transaction request shall be liable to be rejected.
- For all new accounts opened by investors, from September 1, 2015 till October 31, 2015, MFs need to obtain relevant FATCA / CRS declarations. These details / certification need to be obtained by December 31, 2015, particularly in cases where, after India search, a positive match is found with any US indicia. If self certification is not provided by an investor or the reasonableness of self-certification cannot be confirmed, the account is treated as reportable.
- For accounts opened between July 1, 2014 and August 31, 2015 and certain pre - existing accounts opened till June 30, 2014, the AMC is reaching out to such investors to seek the requisite information/declaration which has to be submitted by the investors before specified timelines. In case the information/declaration is not received from the investor on or before the specified timelines, the account shall be treated as reportable.

Investors are requested to provide all the necessary information / declarations to facilitate compliance, considering India's commitment to implement CRS and FATCA under the relevant international treaties.

Please consult your professional tax advisor for further guidance on your tax residency, if required.
