## INVESTMENT STRATEGIES:

### ICICI PRUDENTIAL VALUE DISCOVERY FUND:

The Scheme is an open-ended Scheme that aims to provide long term capital growth by investing primarily in a well-diversified portfolio of companies that are selected based on the criteria of Value Investing. Value investing is an investment strategy where stocks are selected that trade for less than their intrinsic values.

The Scheme proposes to carefully accumulate a portfolio of stocks, which are available at a discount to its intrinsic value through a process of "Discovery". The Discovery Process would be through identification of such stocks, which have attractive valuations in relation to earnings or book value or current and/or future dividends and are available at a price, which can be termed as a bargain. This may constitute stocks, which have depreciated for a short period due to some exceptional circumstance or due to market correction phase or due to lack of interest in investing in a sector, which has significantly underperformed the market. Such stocks are considered to have intrinsic value because of their business models and show potential for smart growth in the future. Intrinsic value of a stock is determined through analyzing the financial statements of the companies and parameters such as EPS (Earnings per Share), the Book Value per share, understanding the competition landscape and business structure of these companies. The universe of stocks for this Scheme will be defined as those stocks whose prices are low relative to their fundamentals, their historic performance, their book values, their earnings and cash flow potential and current and/or future dividends.

For investment, AMC would use industry specific valuation measures to evaluate companies in every sector in order to select the most attractive companies for the portfolio.

The Scheme may also invest a part of its corpus in overseas markets in Global Depository Receipts (GDRs), ADRs, overseas equity, bonds and mutual funds and such other instruments as may be allowed under the Regulations from time to time.

The Scheme may engage in Stock Lending activities.

The Scheme may invest in derivatives such as Futures & Options and such other derivative instruments like Stock/Index Futures, Interest Rate Swaps, Forward Rate Agreements or such other derivative instruments as may be introduced and permitted by SEBI from time to time. The Scheme may invest in derivative for the purpose of hedging, portfolio balancing and other purposes as may be permitted under the Regulations. Hedging using Interest Rate Futures could be perfect or imperfect, subject to applicable regulations.

### Fixed Income securities

The Scheme may also invest in Debt and Money Market Securities/Instruments (Money Market securities include cash and cash equivalents). The Scheme aims to identify securities which offer optimal level of yields/returns, considering risk-reward ratio. With the aim of controlling risks rigorous in depth credit evaluation of the securities proposed to be invested in will be carried out by the Risk Management Team of the AMC. The credit evaluation includes a study of the operating environment of the issuer, the short as well as long-term financial health of the issuer. Rated debt instruments in which the Scheme invests will be of investment grade as rated by a credit rating agency. The AMC may consider the ratings of such Rating Agencies as approved by SEBI to carry out the functioning of rating agencies. The Scheme may invest in securitised debt.

In addition, the investment team of the AMC will study the macro economic conditions, including the political, economic environment and factors affecting liquidity and interest rates. The AMC would use this analysis to attempt to predict the likely direction of interest rates and position the portfolio appropriately to take advantage of the same.

Further, the Scheme may invest in other schemes managed by the AMC or in the schemes of any other Mutual Funds in terms of the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments.

For the present, the Scheme does not intend to enter into underwriting obligations. However, if the Scheme does enter into an underwriting agreement, it would do so after complying with the Regulations and with the prior approval of the Board of the AMC/Trustee.

### ICICI PRUDENTIAL MULTI-ASSET FUND:

The Scheme proposes to invest across asset classes, in line with the asset allocation mentioned

in the SID, with the aim of generating capital appreciation. With this aim the Investment Manager will allocate the assets of the Scheme between Equity, Debt, Gold/Gold ETF/commodities and units of REITs & InvTs. The actual percentage of investment in the asset class will be decided after considering the prevailing market conditions, the macroeconomic environment (including interest rates and inflation), the performance of the corporate sector, the equity markets and general liquidity and other considerations in the economy and markets.

The AMC may choose to continuously churn the portfolio of the Scheme in order to achieve the investment objective. The AMC will have the discretion to take aggressive asset calls i.e. by staying 80% in an asset class and 10% at another or as per the view of the fund manager. Given the nature of the Scheme, the portfolio turnover ratio could be very high and AMC may change the full portfolio, commensurate with the investment objectives of the Scheme.

The Scheme proposes to take long term call on stocks, which in an opinion of the Fund Manager offer better return over a long period. In stocks selection process, the AMC proposes to consider stocks with long-term growth prospects but currently trading at modest relative valuations.

The Scheme proposes to concentrate on business and economic fundamentals driven by in-depth research techniques, employing strong stock selection. Stock-picking process proposed to be adopted is generally a "bottom-up" approach, seeking to identify companies with above average profitability supported by sustainable competitive advantages and also to use a "top-down" discipline for risk control by ensuring representation of companies from various industries.

In case of Debt and Money Market securities, the scheme aims to identify securities which offer optimal level of yields/returns, considering risk-reward ratio. With the aim of controlling risks rigorous in depth credit evaluation of the securities proposed to be invested in will be carried out by the Risk Management team of the AMC. The credit evaluation includes a study of the operating environment of the issuer, the short as well as long-term financial health of the issuer.

The AMC may consider the ratings of such Rating Agencies as approved by SEBI to carry out the functioning of rating agencies.

In addition, the investment team of the AMC will study the macro economic conditions, including the political, economic environment and factors affecting liquidity and interest rates. The AMC would use this analysis to attempt to predict the likely direction of interest rates and position the portfolio appropriately to take advantage of the same.

The Schemes could invest in Fixed Income Securities issued by government, quasi government entities, corporate issuers, structured notes and multilateral agencies in line with the investment objectives of the Scheme and as permitted by SEBI from time to time.

The scheme will also invest in the appropriate commodity or gold or gold ETF in order to achieve the investment objective. The scheme may also invest in Units issued by REITs & InvTs after doing due research on the same.

For comparison between various schemes: Kindly refer to “Key Scheme Features”

**SUSPENSION OF SALE AND REDEMPTION OF UNITS**

Suspension or restriction of repurchase/ redemption facility under any scheme of the mutual fund shall be made applicable only after obtaining the approval from the Boards of Directors of the AMC and the Trustees. After obtaining the approval from the AMC Board and the Trustees, additionally, the following requirements shall need to be observed before imposing restriction on redemptions:

- a) Restriction may be imposed when there are circumstances leading to a systemic crisis or event that severely constricts market liquidity or the efficient functioning of markets such as:
  - i. Liquidity issues - when market at large becomes illiquid affecting almost all securities rather than any issuer specific security. Market failures, exchange closures - when markets are affected by unexpected events which impact the functioning of exchanges or the regular

course of transactions. Such unexpected events could also be related to political, economic, military, monetary or other emergencies.

- ii. Operational issues – when exceptional circumstances are caused by force majeure, unpredictable operational problems and technical failures (e.g. a black out). Such cases can only be considered if they are reasonably unpredictable and occur in spite of appropriate diligence of third parties, adequate and effective disaster recovery procedures and systems.
- b) Restriction on redemption may be imposed for a specified period of time not exceeding 10 working days in any 90 days period.
- c) Any imposition of restriction would require specific approval of Board of AMC and Trustees and the same should be informed to SEBI immediately.
- d) When restriction on redemption is imposed, the following procedure shall be applied:
  - 1. No redemption requests up to INR 2 lakh shall be subject to such restriction.

**RIGHT TO LIMIT REDEMPTIONS**

Any Units, which by virtue of these limitations are not redeemed on a particular Business Day, will be carried forward for Redemption to the next Business Day, in order of receipt. Redemptions so carried forward will be priced on the basis of the Applicable NAV (subject to the prevailing load) of the Business Day on which Redemption is made. Under such circumstances, to the extent multiple Redemption requests are received at the same time on a single Business Day, Redemptions will be made on pro-rata basis, based on the size of each Redemption request, the balance amount being carried forward for Redemption to the next Business Day(s).

Suspension or restriction of repurchase/ redemption facility under any Scheme of the mutual fund shall be made applicable only after obtaining the approval from the Boards of Directors of the AMC and the Trustees. After obtaining the approval from the AMC Board and the Trustees, intimation would be sent to SEBI in advance providing details of circumstances and justification for the proposed action shall also be informed.

**RISK MANAGEMENT STRATEGIES / RISK MITIGATION FACTORS:** The Fund by utilizing a holistic risk management strategy will endeavor to manage risks associated with investing in debt and equity markets. The risk control process involves identifying & measuring the risk through various risk measurement tools. The Fund has identified the following risks of investing in equity and debt, and designed risk management strategies, which are embedded in the investment process to manage such risks.

Risk & Description Specific to Debt	Risk mitigants / management strategy
<b>Market Risk/ Interest Rate Risk:</b> As with all debt securities, changes in interest rates may affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of long-term securities generally fluctuate more in response to interest rate changes than do short-term securities. Indian debt markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV.	The schemes will undertake the active portfolio management as per the investment objective to reduce the market risk. In a rising interest rates scenario the scheme will increase its investment in money market securities whereas if the interest rates are expected to fall the allocation to debt securities with longer maturity will be increased thereby mitigating risk to that extent.
<b>Liquidity or Marketability Risk:</b> This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM).	The Schemes may invest in government securities, corporate bonds and money market instruments. While the liquidity risk for government securities, money market instruments and short maturity corporate bonds may be low, it may be high in case of medium to long maturity corporate bonds. Liquidity risk is today characteristic of the Indian fixed income market. The Scheme will however, endeavor to minimize liquidity risk by investing in securities having a liquid market.
<b>Credit Risk:</b> Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security).	Management analysis will be used for identifying company specific risks. Management's past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken to review its ability to undergo stress on cash flows and asset quality. A detailed evaluation of accounting policies, off-balance sheet exposures, notes, auditors' comments and disclosure standards will also be made to assess the overall financial risk of the potential borrower. In case of securitized debt instruments, the Scheme will ensure that these instruments are sufficiently backed by assets.
<b>Reinvestment Risk:</b> This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme are reinvested. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.	Reinvestment risks will be limited to the extent of coupons received on debt instruments, which will be a very small portion of the portfolio value.
<b>Currency Risk:</b> The Schemes will invest in foreign securities as permitted by the concerned regulatory authorities in India. Since the assets will be invested in securities denominated in foreign currency (US\$), the INR equivalent of the net assets, distributions and income may be adversely affected by changes / fluctuations in the value of the foreign currencies relative to the INR.	The schemes subject to applicable regulations, shall have the option to enter into forward contracts for the purposes of hedging against the foreign exchange fluctuations. The Schemes may employ various measures (as permitted by SEBI/RBI) including but not restricted to currency hedging (such as currency options and forward currency exchange contracts, currency futures, written call options and purchased put options on currencies and currency swaps), to manage foreign exchange movements arising out of investment in foreign securities. All currency derivatives trade, if any will be done only through the stock exchange platform.
<b>Derivatives Risk:</b> As and when the Scheme trades in the derivatives market there are risk factors and issues concerning the use of derivatives since derivative products are specialized instruments that require investment techniques and risk analyses different from those associated with stocks and bonds. There is the possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the "counter party") to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mis-pricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.	The Schemes may invest in derivative for the purpose of hedging, portfolio balancing and other purposes as may be permitted under the Regulations. Interest Rate Swaps will be done with approved counter parties under pre-approved ISDA agreements. Interest rate swaps and other derivative instruments will be used as per local (RBI and SEBI) regulatory guidelines.
<b>Risks associated with Equity investment:</b>	<b>Risk mitigants / management strategy</b>
<b>Market Risk:</b> The scheme is vulnerable to movements in the prices of securities invested by the scheme, which could have a material bearing on the overall returns from the scheme.	Market risk is a risk which is inherent to an equity scheme. The Schemes may use derivatives to limit this risk.
<b>Liquidity Risk:</b> The liquidity of the Schemes' investments is inherently restricted by trading volumes in the securities in which it invests.	As such the liquidity of stocks that the fund invests into could be relatively low. The fund will try to maintain a proper asset-liability match to ensure redemption / Maturity payments are made on time and not affected by illiquidity of the underlying stocks.
<b>Concentration Risk:</b> Concentration risk represents the probability of loss arising from heavily lopsided exposure to a particular group of sectors or securities.	The Schemes will try and mitigate this risk by investing in large number of companies so as to maintain optimum diversification and keep stock-specific concentration risk relatively low.
<b>Derivatives Risk:</b> As and when the Schemes trade in the derivatives market there are risk factors and issues concerning the use of derivatives since derivative products are specialized instruments that require investment techniques and risk analyses different from those associated with stocks and bonds.	The Schemes may invest in derivative for the purpose of hedging, portfolio balancing and other purposes as may be permitted under the Regulations. Derivatives will be used in the form of Index Options, Index Futures, Stock Options and Stock Futures and other instruments as may be permitted by SEBI. All derivatives trade will be done only on the exchange with guaranteed settlement. No OTC contracts will be entered into.
<b>Currency Risk:</b> The Schemes may invest in foreign securities as permitted by the concerned regulatory authorities in India. Since the assets will be invested in securities denominated in foreign currency, the INR equivalent of the net assets, distributions and income may be adversely affected by changes / fluctuations in the value of the foreign currencies relative to the INR.	The schemes subject to applicable regulation and as permitted by their scheme information document, shall have the option to enter into forward contracts for the purposes of hedging against the foreign exchange fluctuations. The Schemes may employ various measures (as permitted by SEBI/RBI) including but not restricted to currency hedging (such as currency options and forward currency exchange contracts, currency futures, written call options and purchased put options on currencies and currency swaps), to manage foreign exchange movements arising out of investment in foreign securities. All currency derivatives trade, if any will be done only through the stock exchange platform.

There shall be no transaction charge on subscription below Rs. 10,000/- and on transactions other than purchases/ subscriptions relating to new inflows.

In case of investment through Systematic Investment Plan (SIP), transaction charges shall be deducted only if the total commitment through SIP amounts to Rs. 10,000/- and above. The transaction charges in such cases shall be deducted in 4 equal installments.

However, the option to charge "transaction charges" is at the discretion of the distributors. Investors may note that distributors can opt to receive transaction charges based on 'type of the Scheme'. Accordingly, the transaction charges would be deducted from the subscription amounts, as applicable.

Transaction charges shall also be deducted on purchases/subscriptions received through non-demat mode from the investors investing through a valid ARN holder i.e. AMFI Registered Distributor (provided the distributor has opted-in to receive the transaction charges) in respect of transactions routed through Stock Exchange(s) platform viz. The aforesaid transaction charge shall be deducted by the Asset Management Company from the application amount and paid to the distributor, as the case may be and the balance amount shall be invested in the relevant scheme opted by the investor.

However, upfront commission to distributors will be paid by the investor directly to the distributor, based on his assessment of various factors including the service rendered by such distributor.

Transaction Charges shall not be deducted if:

- Purchase/Subscription made directly with the fund through any mode (i.e. not through any distributor/agent).
- Purchase/ subscription made in demat mode through stock Exchange, irrespective of investment amount.

CAS/ Statement of account shall state the net investment (i.e. gross subscription less transaction charge) and the number of units allotted against the net investment.

- In the case of joint holding in a folio, the first named Unit holder shall receive the CAS/ account statement. The holding pattern has to be same in all folios across Mutual Funds for CAS.

Further, in case if no transaction has taken place in a folio during the period of six months ended September 30 and March 31, the CAS detailing the holdings across all Schemes of all mutual funds, shall be emailed at the registered email address of the unitholders on half yearly basis, on or before tenth day of succeeding month, unless a specific request is made to receive the same in physical form.

Each CAS issued to the investors shall also provide the total purchase value/ cost of investment in each scheme.

Further, CAS issued for the half-year (September/ March) shall also provide:

- The amount of actual commission paid by AMCs/Mutual Funds (MFs) to distributors (in absolute terms) during the half-year period against the concerned investor's total investments in each MF scheme. The term 'commission' here refers to all direct monetary payments and other payments made in the form of gifts / rewards, trips, event sponsorships etc. by AMCs/MFs to distributors. Further, a mention may be made in such CAS indicating that the commission disclosed is gross commission and does not exclude costs incurred by distributors such as Goods and Services Tax (wherever applicable, as per existing rates), operating expenses, etc.
- The scheme's average Total Expense Ratio (in percentage terms) for the half-year period for each scheme's applicable plan, where the concerned investor has actually invested in. Such half-yearly CAS shall be issued to all MF investors, excluding those investors who do not have any holdings in MF schemes and where no commission against their investment has been paid to distributors, during the concerned half-year period.

- Consolidation of account statement shall be done on the basis of Permanent Account Number (PAN). In case of multiple holding, it shall be PAN of the first holder and pattern of holding. The CAS shall be generated on a monthly basis.
- If there is any transaction in any of the Demat accounts of the investor or in any of his mutual fund folios, depositories shall send the CAS within ten days from the month end. In case, there is no transaction in any of the mutual fund folios and demat accounts then CAS with holding details shall be sent to the investor on half yearly basis.
- In case an investor has multiple accounts across two depositories, the depository with whom the account has been opened earlier will be the default depository. The dispatch of CAS by the depositories would constitute compliance by the AMC/ the Mutual Fund with the requirement under Regulation 36(4) of SEBI (Mutual Funds) Regulations.

However, the AMC reserves the right to furnish the account statement in addition to the CAS, if deemed fit in the interest of investor(s).
